OUR FOUNDERS

LUKE & JAS MCGOWAN

The McGowan Family

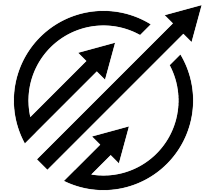

Welcome to our story, We are Luke & Jasmina. We met in Chennai, India in 2015, where we were church planting with Freedom Church. We got married in Scotland in 2017 and in 2018 we moved to Cape Town, South Africa to be part of the leadership team starting Freedom Church Cape Town. We love our Church and have been building Freedom Church's in different locations for over a decade.

We have 2 children and one on the way. Caleb our oldest was born in Cape Town and India our daughter was born in Brugge. Our family is such a blessing and our biggest calling in life.

While living in different counties around the world, especially India and South Africa, it was growing in our hearts to not just see people meet Jesus but to be God's hands and feet to the world around us. We believed we were called to use our gifting and passions to help people and see lives transformed.

We founded the Quiver Foundation in 2021 with an amazing team including the amazing Frank and Wilma Gie who have lived out the kind of transformation journey we invest in.

THE QUIVER FOUNDATION

Quiver Foundation is a registered Non Profit Company in SA, with our Public Benefit Organisation Registration pending. We expect to get this over the line by early 2025.

As the Quiver Foundation we invest in life transformation by giving individuals the opportunity to overcome their obstacles to a healthy and financially sustainable life

Our rehabilitation coordinators and mentors, Frank and Wilma Gie connect with destitute people from the streets of Cape Town, struggling with substance abuse and share hope and a hot drink.

We use these gatherings as an opportunity to look for individuals who show consistency, honesty and a willingness to change. We then mentor these individuals on a journey of recovery, building their confidence and skills and reintegrating them back into society.

In June 2024, We Got A Building!! This gives us a HUGE advantage as we can provide these individuals alternative accommodation, post rehabilitation, so they don't have to go back to the streets and inevitably relapse or overdose.
